KEY FINDINGS: CONTRACT PRICE ADJUSTMENT PROVISIONS (CPAP)

In January 2021, month-on-month percentage changes in the CPAP work group indices ranged from -3,3% for work group 118 to 3,4% for work group 136 (Table 1).

Noteworthy changes in January 2021 were as follows:

- **Work group 136:** The index increased by 3,4% month-on-month. There was an increase of 10,6% month-on-month in the SEIFSA index for plates HR grade S355 JO+N (accounting for 9,0% of this work group), an increase of 10,1% month-on-month in the SEIFSA index for squares & rectangular hollow sections (accounting for 9,0% of this work group) and an increase of 5,0% month-on-month in the SEIFSA index for Iscor steel price - light section (accounting for 10,0% of this work group).
- **Work group 160:** The index increased by 3,2% month-on-month. There was an increase of 5,0% month-on-month in the SEIFSA index for copper 7.9 mm rod (accounting for 35,0% of this work group).
- **Work group 120:** The index increased by 2,9% month-on-month. There was an increase of 4,4% month-on-month in the PPI for bituminous mixtures (accounting for 65,0% of this work group).
- **Work group 118:** The index decreased by 3,3% month-on-month. There was a decrease of 5,9% month-on-month in the PPI for granite, sandstone and other monumental or building stone (accounting for 54,0% of this work group).

KEY FINDINGS: CONSTRUCTION INPUT PRICE INDICES (CIPI)

- **Total construction:** The index increased by 1,5% month-on-month (Table 2).
- **Civil engineering material – total:** The index increased by 2,1% month-on-month (Table 6).

Note:

Statistics South Africa reweights and rebases tables 2-5 of the Construction material price indices (P0151.1) every three to four years. The weights are based on expenditures of businesses in the construction industry. Selection of the specific products is derived from the Construction industry large sample survey (Report 50-02-01). Results of the latest survey from 2017 are now available.

Stats SA is currently reviewing the data to determine new weights which will be implemented in the January 2022 release.

The CPAP indices (Table 1 in the monthly statistical release) and civil engineering material price indices, compiled in conjunction with industry committees, are not affected by this reweighting process. Instead, the weights for these tables are updated from time to time on advice from the industry committees.

Rebasing of the indices to December 2020=100 (as announced in the December 2020 publication) will be postponed from the January 2021 release to coincide with the implementation of the new weights in January 2022.

EXPLANATORY NOTES

Contract Price Adjustment Provisions (CPAP)	The CPAP work group indices are used for making adjustments based on cost fluctuations in labour, plant and materials.
Sources for CPAP	The CPAP work group indices are derived from changes in the cost structures prevailing in 37 different sectors of the building industry and are published by Stats SA on a monthly basis. The indices reported on in this publication are mainly based on a combination of PPI, SEIFSA and CPI indices for the particular month.
Contract Price Adjustment Provisions Steering Committee	The Committee is the oversight structure for the Construction Price Adjustment Provisions published by Statistics South Africa as release number P0151.1 and comprises of representatives of the following industry associations and organisations: The Association of South African Quantity Surveyors, Electrical Contractors' Association (SA), Master Builders South Africa, the South African Institute of Architects, and the National Department of Public Works and Statistics South Africa.
Tax	Value added tax (VAT) are not included in these indices.
CPAP manuals	The updated CPAP manuals "CPAP Application Manual" and "CPAP Work Groups Composition and Weighting of Sub-Indices" are obtainable from The Association of the South African Quantity Surveyors – ASAQS, website: www.asaqs.co.za - search for CPAP, or by phoning (012) 310 8077.
Construction Input Price Indices (CIPI)	The index reflects material purchases in the construction industry

GENERAL INFORMATION

Stats SA publishes approximately 300 different statistical releases each year. It is not economically viable to produce them in more than one of South Africa's eleven official languages. Since the releases are used extensively, not only locally but also by international economic and social-scientific communities, Stats SA releases are published in English only.

Stats SA has copyright on this publication. Users may apply the information as they wish, provided that they acknowledge Stats SA as the source of the basic data wherever they process, apply, utilise, publish or distribute the data; and also that they specify that the relevant application and analysis (where applicable) result from their own processing of the data.
