Key findings

Table 1: Contract price adjustment provisions (CPAP) work group indices

Noteworthy month-on-month changes in February 2025 were as follows:

Work group 136 – metalwork: the index increased by 6,1%, driven by the following changes in the SEIFSA indices:

- 16,4% for Iscor steel price - light section (Table E-A) (accounting for 10,0% of this group);
- 13,6% for IPE's (accounting for 8,6% of this group);
- 12,4% unequal angles (accounting for 8,6% of this group);
- 8,3% for channels & PFCs rolled in SA (accounting for 8,6% of this group);
- 7,2% for flat bars (accounting for 8,6% of this group);
- 5,4% for equal angles (accounting for 8,6% of this group); and
- 5,0% for squares & rectangular hollow sections (accounting for 8,6% of this group).

Work group 134 – structural steelwork in buildings: the index increased by 4,0%, driven by the following changes in the SEIFSA indices:

- 13,6% for IPE's (accounting for 7,4% of this group);
- 12,4% for unequal angles (accounting for 7,4% of this group);
- 8,3% for channels & PFC's rolled in SA (accounting for 7,4% of this group);
- 7,2% for flat bars (accounting for 7,4% of this group);
- 5,4% for equal angles (accounting for 7,4% of this group); and
- 5,0% for squares & rectangular hollow sections (accounting for 7,4% of this group).

Work group 173 – steel water pipe installations: the index decreased by 2,3%. There was a change of -7,8% in the PPI for steel pipes (accounting for 40,0% of this group).

Tables 2 and 3: Construction input price index (CIPI)

The annual change in the total construction index was 2,5% in February 2025. The index increased by 1,3% month-on-month.

The following indices recorded noteworthy month-on-month changes:

- construction stone and sand (4,0%);
- cement (3,5%);
- construction structural and reinforcing steel (1,8%);
- ready-mix concrete (1,5%);
- construction pipes, tubes and fittings (1,3%); and
- ceiling boards (-1,4%).

Table 4: Mining and construction plant and equipment price indices

The annual change in the plant and equipment index was 10,5% in February 2025. The index decreased by 0,1% month-on-month.

Table 5: Mechanical and electrical engineering input price indices

The annual change in the mechanical engineering index was 0,1% in February 2025. The index increased by 1,4% month-on-month.

The annual change in the electrical engineering index was 8,2% in February 2025. The index increased by 1,0% month-on-month.

Table 6: Civil engineering material price indices

The annual change in the total index (civil engineering material) was 2,0% in February 2025. The index increased by 4,5% month-on-month.

Civil engineering material - bulk earthworks	105,1	104,9	107,9	2,9	2,7
Civil engineering material - bulk earthworks (excluding bitumen)	105,8	105,7	109,0	3,1	3,0

¹ The information in this table is published in conjunction with engineering associations SAFCEC and SAICE.

Glossary

Construction Input Price Indices (CIPI)	The index reflects material purchases in the construction industry.
Contract Price Adjustment Provisions (CPAP)	The CPAP work group indices are used for making adjustments based on cost fluctuations in labour, plant and materials.
Contract Price Adjustment Provisions Steering Committee	The committee is the oversight structure for the Construction Price Adjustment Provisions published by Statistics South Africa (Stats SA) and includes representatives from the following industry associations and organisations: The Association of South African Quantity Surveyors (ASAQS), Electrical Contractors' Association (SA), Master Builders South Africa, South African Institute of Architects, Department of Public Works and Stats SA.
CPAP manuals	The updated CPAP manuals "CPAP Application Manual" and "CPAP Work Groups Composition and Weighting of Sub-Indices" are obtainable from ASAQS' website: www.asaqs.co.za – search for CPAP, or by phoning (012) 406 3304.
Respondent response rate	The respondent response rate for February 2025 was 98,7%. The rate was calculated using the total number of companies where prices were collected as a percentage of the total sample.
Sources for CPAP	The CPAP work group indices are derived from changes in the cost structures prevailing in 38 different work activities of the building industry. They are published by Stats SA monthly. The indices reported on in this publication are mainly based on a combination of PPI, SEIFSA and CPI indices for the particular month.
Tax	Value-added tax (VAT) is not included in these indices.
Weights	Weights are updated according to the availability of new information, as follows: <ul style="list-style-type: none"> • Tables 1 and 6 are updated periodically in consultation with industry expert committees. • Tables 2, 3 and 5 are partially updated annually using Stats SA's supply and use tables, with effect from the January statistical release each year. • Table 4 is updated periodically using Stats SA's large sample survey for the manufacturing industry and SARS trade data. • Tables 2, 3, 4 and 5 are updated on a detailed level, using Stats SA's large sample surveys for the construction and manufacturing industries, approximately every three to four years.
Revised figures	The SEIFSA data is continuously updated and therefore Stats SA allows for revisions of the CPAP work group indices. Revisions will be promptly indicated in relevant tables to maintain transparency and accuracy.

Abbreviations

CIPI	Construction Input Price Indices
CPAP	Contract Price Adjustment Provisions
CPI	Consumer Price Index
PPI	Producer Price Index
SAFCEC	South African Forum of Civil Engineering Contractors
SAICE	South African Institution of Civil Engineering
SARS	South African Revenue Service
SEIFSA	Steel and Engineering Industries Federation of Southern Africa
r	Revised figures

General information

Stats SA publishes approximately 300 different statistical releases each year. It is not economically viable to produce them in more than one of South Africa's 12 official languages. Since the releases are used extensively locally and by international economic and social-scientific communities, Stats SA releases are published in English only.

Stats SA has copyright on this publication. Users may apply the information as they wish, provided that they acknowledge Stats SA as the source of the basic data wherever they process, apply, utilise, publish or distribute the data; and also that they specify that the relevant application and analysis (where applicable) result from their own processing of the data.

Advance release calendar

An advance release calendar is disseminated on www.statssa.gov.za.

Forthcoming issues

Issue	Expected release date
March 2025	24 April 2025
April 2025	29 May 2025
May 2025	26 June 2025

Stats SA products

A complete set of Stats SA publications is available at the Stats SA Library and the following libraries:

National Library of South Africa, Pretoria Division
 National Library of South Africa, Cape Town Division
 Natal Society Library, Pietermaritzburg
 Library of Parliament, Cape Town
 Bloemfontein Public Library
 Johannesburg Public Library
 Eastern Cape Library Services, Qonce
 Central Regional Library, Polokwane
 Central Reference Library, Mbombela
 Central Reference Collection, Kimberley
 Central Reference Library, Mmabatho

Stats SA also provides a subscription service.

Electronic services

A large range of data are available via online services. For more details about our electronic data services, contact (012) 310 8600. You can visit us on the internet at: www.statssa.gov.za.
